One of the first comments on the DCTV video I uploaded last night. The Banking Cartel broke the link to the teleprompter, and I had to reset it:

I have a cello lesson this morning, and only wanted to field the worst things quickly. You have not gotten up to speed on this. Yes there is something going on with the Jewish religion, but it is up to you to find out what is the reality and how you are being manipulated. The criminals at the very center of the Banking Cartel are hiding behind the Jewish religion and using this as a front and making sincere believers into patsies. That is it in a nutshell. I will give you the proof. These crooks were active long before Moses saw the burning bush.

The Perspective also presents the case that this concealed foreign enemy and its American minions are on their last legs because they have unwisely accelerated their long concealed scheme of "controlled disintegration," accompanied by numerous shootings and bombings that have awakened Americans. This foreign enemy has two fatal vulnerabilities: its needs for: (i) public invisibility and, (ii) control of the U.S. military to enforce its concealed global schemes.

1. The enemy uses its near-total control of global media, education, and entertainment to maintain its invisibility with a high wall of false reality. But the accelerating social and economic stress to which it has subjected the American public by its massively fraudulent and destructive schemes, is dragging the enemy toward the light and explosive public wrath.
2. The enemy's critically important control of the U.S. military is rapidly evaporating. The American, Russian, and Chinese militaries---in concert---have determined the wisdom of bringing to an end the families' plans for fomenting a World War III and its New World Order pretensions and its murderous existence. Closing with the enemy has already begun.

The enemy hides behind authentic Judaism and, when attacked, will deceptively claim anti-semitism and hate crimes at work. Members of the enemy are not Jews in any way. They don't have a religious or humanitarian bone in their bodies, only a lower order predator instinct.

I want to leave you with another issue that just popped up on my computer screen. The Banking Cartel also removed the teleprompter for the June 12th episode in the DCTV Series on in order to hide this information:

This point is brought to you by the Banking Cartel. The Banking Cartel removed a document showing that US Congress has declared a state of emergency, suspending the Constitution. That was a stupid thing for the Banking Cartel to do, because the Senate Report 93-549 can be viewed on internet archives.

https://web.archive.org/web/20120224004026/www.barefootsworld.net/war_ep1.html

This report says, " This vast range of powers, taken together, confer enough authority to rule the country without reference to normal Constitutional processes."The Banking Cartel has usurped the governments of the world by turning them into a corporation that is owned by the Banking Cartel. Because this is true, there are other links showing that the US Congress suspended the Constitution by declaring a state of emergency. This is after the Constitution was suspended during the Civil War.

Another document showing that US Congress has declared a state of emergency, suspending the Constitution: [**http://www.criminalgovernment.com/docs/emer.html**](http://www.criminalgovernment.com/docs/emer.html)

The Banking Cartel then broke the link to my tweet telling you about this, and so I reset the link and uploaded this information again. I will give you the tweet at the end of the teleprompter.

I have also published former Congressman James Traficant's statement, calling attention to the declaration of bankruptcy in the Federal Register. The US federal government exists in name only, as the Banking Cartel declared the US bankrupt in 1933. I published the statement of James Traficant (See page 8 of the teleprompter

Good evening, I am your host Karen Hudes. This show is a Series that has been coming to you from DCTV since 2015 in a weekly program called the Network of Global Corporate Control. Today's program is called "Next Steps in the Global Currency Reset" Thank you to DCTV and Carmen Stanley, Studio Producer. Carmen gets the job done without fanfare. A special thanks for helping us these past 6 months and farewell to Aliya Ja'mari; today Aliya is our Floor Director and next month she begins film studies on scholarship in California. I also want to recognize Krushae Starnes, who has volunteered to help us again today on Audio and Prompter.

Last week we discussed what the next steps are, and why we are ready for them. The next step is for the people who understand what is really going on in the world and I to discuss how we are going to end the corruption in the world's money system. Enough people understand what I am talking about so that we can take these next steps. We have been fighting this corruption for a long time. I am going provide enough background today so that the newbies understand.

I give proof for everything I tell you, and answer your questions. The proof is in the archives to this Series.

Don't be confused by my low profile whether I am representing you and everybody else. We are all in this together.

1. Note how Donald Trump remained silent when I said that he was not the Commander-in- Chief of the US (pointing out how his silence demonstrates that he is powerless to object):

If people want to move to a moneyless world like Ubuntu is advocating, they can do this when all of humanity has cleaned the corrupt world money system.

How do I know this? From working with the world's military powers, who are not going to surrender by allowing the fake paper money system (fractional reserve fiat currencies) to crash. If anyone doubts that I am working with a coalition of the world's military powers, they need to ask themselves why nothing bad happened to me when I said that Donald Trump was not the Commander-in-Chief of the United States.

1

AUDREY CONTRERAS

Hi, Ms Karen

We understand your role in our lives and we have been very patient. I believe that we can not wait any longer since Mr. Trump is demonstrating that it is out of his power to control the United States to pacify the world, in contrary way this man is trying to start a great war. The Lord thinks he is the owner of humanity and we are exposed to much suffering if the situation continues in the current direction. We aggravate all your efforts but time seems to be over for humanity. we hope for better news in your next video, best regards

Karen Hudes

Yesterday I told Audrey Contreras that I would get back to her today. What I just said about Donald Trump's not being the Commander-in-Chief is has greatly undermined Trump's credibility, and his authority with the US military. You say that Donald Trump is trying to start a great war. That is certainly what the Banking Cartel wants, in order to interrupt the Global Currency Reset. The Global Debt Facility contains over 2 quadrillion in bonds that are owed by the

Banking Cartel. In the Global Currency Reset, we are winding down the Banking Cartel and cutting off interest payments on country debt. It is the Banking Cartel that owes money, not vice versa. In the Global Currency Reset, we are winding the Banking Cartel down because it is bankrupt. The Banking Cartel's Agent, Donald Trump, is also bankrupt under a commercial lien, because he is harming me with his lies.

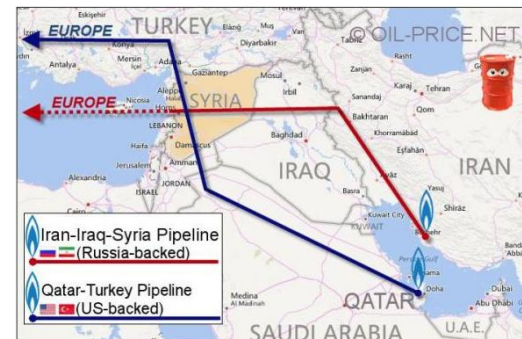

There are a lot of distractions playing out on the world stage right now. This is not a coincidence, because what we are doing together right now is very threatening to the Banking Cartel. The Banking Cartel owns just about all the news outlets. That is how the Banking Cartel can give you fake news and can try to hide reality from you. What we are talking about today is reality, and what you are hearing in the news has been orchestrated by the Banking Cartel to create WWII. There are enough people in the world's military powers who know this fact to keep us out of WWII.

I am basing this statement on a very accurate power transition model. <https://s3.amazonaws.com/khudes/sentia+model.pdf>

The political scientist who developed this model for the US National War College brought this model to the World Bank in 2004. At that time Jacek Kugler demonstrated for the World Bank in Ghana, where I was then the country lawyer, how the National War College's model works. It is 90-95% accurate.

Jacek also told me that we had 5 years to prevent WWII from starting in the Middle East. WWII was supposed to start in Syria. I have been defusing the Banking Cartel's attempt to start WWII in Syria by showing you that what is going on in Syria is really all about gas pipelines.

I have been back in touch with the Department of Defense about their power transition model. I discussed this model with then Senator Chuck Hagel. We are now working from this model to prevent WWII, and the chances we succeed are over 90%. I am using the National War College's model as a blueprint. How? The US has defense treaties with Japan and Germany, and these countries expect the US military to honor their commitments to keep us all out of WWII.

The Banking Cartel is taking the National War College's Power Transition Model very seriously because of the model's 90-95% accuracy. The Banking Cartel, through its sock puppet "Brown Noise", is trying to argue that the Power Transition Model is not reliable and "doesn't work". Wrong, Banking Cartel. The Power Transition Model works.

I want to remind you how I work. I follow and take directions from humanity. I have a track record that should reassure you of this very point.

<https://s3.amazonaws.com/khudes/Twitter8.4.17.pdf>

In 2009, when Svein Aass, then Norway's Executive Director, and Eugene Miagkov, Assistant Executive Director for Russia, appointed me as Acting General Counsel of the World Bank, I reassured them that I work with the World Bank's Board of Governors. I

repeated this to another Russian woman who wanted to check me out during a panel at a think tank some time ago.

I keep various crooks from stealing the wealth of the world and the world's monetary gold reserves that were put in a trust for humanity called the "Global Debt Facility" at the end of WWII. Sometimes YouTube erases your comments in our archives. The Banking Cartel and its agents are going to try to interfere with our communications for awhile. We are going to continue to "tune out" the Banking Cartel and its agents and its sock puppets.

The Banking Cartel hacked into my website last week.

You're a beautiful person, Karen! I admire you and respect you. You risk your life for the people and that makes you a hero, but if you don't turn up the volume, I can't watch! PERIOD! The only part that's loud enough is that terrible montage are you going to eliminate it? Do you think we want the mainstream media? This opening reminds us of the MacNiel/Le

report and all those people are members of the CFR! They are part of the evil control group that wants to enslave the world. Who told you that mimicking them was a good idea? Just open with a close up smile and say, warmly, I'm Karen Hudes! Then start reading!

I want to share some advice that Rick Lewis gave me a couple of years ago, and which is even more relevant today than when he gave it:

<https://s3.amazonaws.com/khudes/Twitter6.30.16.pdf>

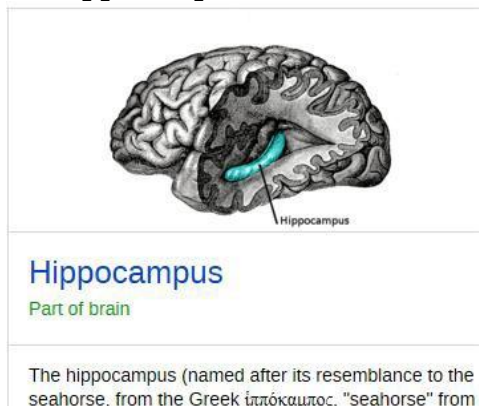

Rick Lewis

Hi Karen, Sounds like a lot of pressure on you to make a decision for humanity. I have to say there is a pressure building everywhere and a lot are turning to you for answers and of course the determined resistance builds. You continue to show great courage and determination to follow your path. Perhaps the level of fear mongering that appears to be a constant is heightening and in turn raising anxiety for all, along with other world events, elections etc that try swaying public views and more importantly division, this has a direct bearing on energy levels that promotes uncertainty. Have felt this myself with so many decisions made "for" us, feelings of hope can be replaced by urgency for someone to fix it. Lack of information in the mainstream media (the norm for most) promotes distrust and questions. These aren't new thoughts although with the idea that your efforts are coming to fruition the stepping up of historical practices to divide and conquer will also be rising. I believe as you do the hope rests with the people of the world and the humanity that is inside masked by the fear and greed that is manipulated by the few. Let's all be honest about responsibility and support the efforts that have given us hope for change. Keep the faith... :-)

What is the next step? We discuss the issues that need to be decided in the Global Currency Reset. One of the questions that will have to be decided is how deep does the overhaul of the world's international financial system have to be? Right now it is very convenient to make a purchase with a credit card. If we keep that system intact, there is not going to be any way to end the corruption. I am thinking that we need to go just as deep as the corruption is to root it out. Do people agree? When you consider this question, remember that there are going to be a lot of alternatives with local currencies. The local merchants are certainly able to decide whether the purchases in the local community with the local currencies are going to be with some form of credit and debt.

This is just one example of the kind of issues we are going to be discussing. The next step is going to be an ongoing dialogue about what the Global Currency Reset is going to be like. This is not a conversation that the Banking Cartel wants us to have. It is the kind of conversation that the Banking Cartel's sock puppets are guaranteed to want to gum up.

During the early stages of the Global Currency Reset, YouTube, because of its accessibility, seems to be the best way for us to discuss the Global Currency Reset. The Global Currency Reset remains a work in progress. This is a project for all of humanity, and we are going to manage. How do I know this? Based on the conversations I have with "We the People." I recently learned about the special role of the hippocampus:

<https://www.verywellmind.com/what-is-the-hippocampus-2795231>

Humanity possesses many hidden abilities: according to my source on the hippocampus, "we are transcendent beings." In other words, we have many talents and capabilities that are going to stand us in good stead during the Global Currency Reset.

Karen, this is perfect! Your point about using precious metals as insurance rather than investments especially caught my interest as we close out the month--would you be able to share this particular part along with the gold chart today or tomorrow? To make things easier, I added a quick intro to what you already have just to cite the original source of the information on the graphic. Here's how this could look if you have time to post it on <http://leconomistamascherato.blogspot.com/>

I re-attached the graphic below. Let me know Karen! Here's a chart of gold along with a historical timeline of certain events during the same time period, created with gold and US dollar information from Rosland Capital's page for gold-based IRAs.

From: Karen Hudes <KarenHudes@hotmail.com>

My advice is going to be that there is every reason to expect the Coalition for the Rule of Law to prevail, and that we are going to have a "soft landing". People should invest in precious metals as insurance, not investment. As for the price of gold, this is going to be determined by UNCTAD using a basket of currencies and goods and services. The price of gold maintains value over time. It is going to take us awhile to mint the aurum, <http://www.peakprosperity.com/podcast/84359/new-way-hold-gold> Stay tuned as we roll out the Global Currency Reset. Let me add that we are in the middle of an historic transition. One of the unknown but very positive factors is the fact that we are "transcendent beings". This is what I wrote before the Banking Cartel broke the link to a document showing that the Constitution of 1789 is not in effect:

The last point is brought to you by the Banking Cartel. The Banking Cartel removed this document from the internet on the suspension of the US Constitution of 1789 through the US Congress' declaration of a state of emergency. That was a stupid thing for the Banking Cartel to do, because it can be viewed on internet archives. The Banking Cartel has usurped the governments of the world by turning them into a corporation that is owned by the Banking Cartel. Because this is true, there are other links showing that the US Congress suspended the Constitution by declaring a state of emergency. This is after the Constitution was suspended during the Civil War.

Another document showing that US Congress has declared a state of emergency, suspending the Constitution:

dear ms. hudes, the barefootsworld.net/war link is not going through. it did just recently but now it's gone again.

https://web.archive.org/web/20120224004026/www.barefootsworld.net/war_ep1.html

I've noticed that this has happened a couple of times with other links as well (links that went through not doing so in the future, that is). guess they (the ngcc/banking cartel) believe we'll forget what we read and not retain enough to put the puzzle together? or at least spot glaring anomalies in their version of reality? or that we'll go back and double check and cross reference, etc.? they have grossly under-rated the capacity of humanity to effectuate positive change if given truthful information to consider, in my view, as well as humanity's determination to go to the trouble to actually correct, in a peaceful manner, the errors, impediments, and obstacles to that positive change. and we will indeed "go to the trouble", I believe, to better the world. in time. but folks are impatient. "when?", they want to know. but what about "how", and "who" and "why" and all the others? Truth is re-inforced by these questioning words, over Time, whereas Lies find no support. I for one have seen (over time) that your words are true. and nay-sayers can't keep up the lies that they try to use to discredit you. they just can't. over time their arguments fall apart. and so do their illusions of reality they would have us believe. not any more. -----a

Board of Governors of World Bank and IMF announce transition to asset-backed currencies

[PRESSWIRE] Washington DC, United States - 09 March 2015 - The Board of Governors of the World Bank and IMF announced that fractional reserve fiat currencies will be replaced with gold from a trust created at the end of World War II.

Jose Rizal, Superior General of the Society of Jesus, and his lawyer, Ferdinand Marcos, established this trust for the benefit of humanity. The trust also contains other precious metals, gems, and artwork.

The Federal Reserve and the US Treasury do not possess the monetary gold reserves of the United States; these reserves are in the trust administered for the benefit of humanity by the Bretton Woods institutions. Instead, the Federal Reserve owes quadrillions in compound interest on obligations issued during the 1930s.

The Board of Governors has filed Financing Statements with the Secretaries of State in the 12 states where the Federal Reserve Banks are located to secure this debt. National debts are going to be offset against the indebtedness of the Federal Reserve.

Antal Fekete, a monetary expert of the *New Austrian School of Economics*, said: "A negative gold basis tells you that there is an excruciating shortage of deliverable gold."

The Board of Governors determined that the fractional reserve fiat currency of each country is going to be exchanged for their national currency in aurum (<http://www.peakprosperity.com/podcast/84359/new-way-hold-gold>). Treasuries will issue gold certificates on an interim basis. The certificates will be replaced with aurum as they are minted.

With restored confidence in international currencies, peace and prosperity will be preserved. Legal tender laws will go out of effect, and local currencies will be permitted. Countries may also issue asset-backed currency with other commodities than gold.

The Bretton Woods institutions held the trust secret for 50 years so that the assets were clear and free for humanity as a whole under the statute of limitations.

The 50 years of sequestration ended in 2005. A coalition for the rule of law has come into existence to end the secrecy and to safeguard humanity's patrimony. This coalition was predicted by an accurate power transition model developed for the US Department of Defense by Jacek Kugler (<https://s3.amazonaws.com/khudes/sentia+model.pdf>).

The fractional reserve fiat currencies of the central bank members of the Bank for International Settlements will continue to circulate until they are exchanged with aurum.

Karen Hudes, the Acting General Counsel of the International Bank for Reconstruction and Development, is legal counsel to the trust.

Pepe, You have it right as far as one part of the coalition - the BRICS, Germany, and the G-77. The other part of the coalition is the United States minus the Federal Reserve. The Board of Governors of the World Bank and the International Monetary Fund have approved public filing of Financing Statements under the Uniform Commercial Code with the Secretaries of State where the 12 Federal Reserve Banks are located. Ten UCC-1 statements have been filed electronically, and the remaining two statements are in process. The Global Debt Facility (a trust established at the end of WWII) contains the world's gold reserves and other wealth for the benefit of humanity. The Bretton Woods institutions, established to administer the Global Debt Facility, hold 200 boxes of Federal Reserve Notes, together with Eagle U.S. Hardware Mother Box 5 Boxes, and Treaty of Versailles Mother Box 45 Boxes in this trust. Together with compounded interest since the 1930's, the debt of the Federal Reserve evidenced by these UCC-1 filings offsets the country debts of the member countries of the World Bank and IMF. The fractional reserve fiat currency of each country is going to be exchanged for their national currency, but containing gold. Countries will abolish legal tender laws, and permit local currencies to be issued as well. Countries may also use other commodities for issuing their asset-backed currency. The corrupt fractional reserve fiat currencies of the central bank members of the Bank for International Settlements are only going to be permitted until they can be exchanged for asset-backed currencies to be issued by the members of the coalition for the rule of law. This comment will be issued in a formal press release by the Board of Governors of the Bretton Woods institutions in forty eight hours.
